Here’s a list of things you’ll want to know in preparation for Move-In this fall.

No pets are allowed in the residence halls.

Blinds are installed in each room; however any curtains are the sole responsibility of the resident and are only acceptable with tension rods that do not damage the window framing or walls.

You may only use 3M command strips to hang items on walls.

If you are planning on arriving outside of the scheduled Move-In times:
Parking close to the buildings is limited, so you may want to bring moving items such as a hand truck or portable cart to assist you when moving in.

CABLE AND INTERNET
Your community will have a wireless internet connection called ResNet, but you may want to bring an Ethernet cord as well. If you plan on bringing a printer, please plan on connecting it to your computer with a cable, instead of the shared wireless connection.

Cable service is already connected in your room. Please remember to bring a coaxial cable for each television you are planning to hook up. DO NOT plan to mount a television on the wall, as this is not permitted in any residence halls.

BATHROOM
You will share a bathroom, so you may want to bring shower shoes and a shower caddy. You share a bathroom with your neighbors, and you will be responsible for cleaning it. You may want to coordinate with your roommates about bringing cleaning supplies.

OTHER ROOM INFORMATION
Your floor is vinyl tile, so you may decide to bring an area rug. You may also purchase a rug from Collegiate Bed Loft at www.cblorder.com.

Move-In
For more information on getting ready for Move-In, check out our website with tips and packing lists.

You will receive additional move-in information in the mail later this month, including a parking pass to use during Move-In and a map to direct you to your residence hall.
