

Housing and Residential Communities

Requests for Special Medical Accommodation in Housing

Housing and Residential Communities will consider all requests for special accommodation in campus housing based on medical need with proper documentation. Requests should be submitted to Alicia Browne, Associate Director, by fax to 205-348-7135 or mail to Box 870399, Tuscaloosa, AL 35487. In order to be considered, requests should include 1) a detailed letter from the student's physician, on letterhead, describing the his/her medical condition, and 2) a specific request for the type of housing that would meet the student's medical need.

Requests will be considered by the Medical Review Committee, composed of staff from Disability Services, the Housing Assignments Office, Housing Operations, and medical staff from the Student Health Center. To maximize HRC's ability to consider a request, requests should be submitted by March 1, 2009, and should contain contact information for the student and his/her physician. A physician or other member of the Medical Review Committee may follow up, if additional information is needed. Requests for Fall 2009 that are submitted after March 1, 2009, will be considered, but HRC's ability to accommodate them will be limited.

Requests for medical housing for the Spring 2009 should be submitted with the documentation described above by December 1, 2008.
